

How do I enter / edit attributes and values for the product?

01) Access the Control Panel

02) After login click on Catalog

03) Open the category and / or subcategory

04) Edit product

05) Above the description will have the field to enter attributes and values

This button you add to the list a new non-existent option

This button confirms the attribute (Option) and Value added to the product

In the Prefix option you can leave blank, select + or -

In the Price option if you selected + will be added more to this attribute and value or if you selected - will be subtracted to less this attribute and value of the price of the product

This button removes the attribute and value added to the product

This button loads a saved template

This button saves you a new template and updates an existing template

This button you rename an existing template
