

Mercado Libre

How to configure the integration of Free Market API?

Go to <http://applications.mercadolivre.com.br/list>

Step 1: Click the Create new application button

Step 2: Fill in the fields as shown below:

- * Name: Name of your store or app
- * Short name: Short name of your store or app with no space
- * Description: Description of your store or app
- * Redirect URI: <http://www.yourdomain.com>

Scopes: * Select read, write, and offline_access

Topics: Select items, orders, questions and payments

Select I have read and I agree with the Terms of use. *

Click the Create application button

Step 3: After getting the App ID and Secret Key.

Access Control Panel

After login click Settings >> Free Market. Edit the App ID and Secret Key fields
