Payment

How to install koin payment module - post paid?

- 01) Create an account with koin, go to: www.koin.com.br
- 02) After approval of the account access the Control Panel
- 03) After login click Modules >> Payment >> Koin >> Install
- 04) After installing click on Edit
- 05) We recommend to do initial approval test, in the field Sandbox Test or Production select Test
- Fill in the fields: Consumer Key and Secret Key will be provided by Koin.
- 06) After clicking the UPDATE button
- 07) Simulate a purchase by selecting Koin payment method
- 08) After completing the purchase successfully, access the Control Panel >> Customers >> Orders
- Check if the request is correct and being carried out OnLine consultation
- 09) After everything is correct, change in Modules >> Payment >> Koin >> Edit

In the Sandbox Test or Production field select Production.

You can now receive payments with Koin, if you have any doubts, please contact Koin directly: www.koin.com.br
